GERMAN GUNFIRE WEAK

Correspondent Believes Kaiser's Troops Lack Ammunition.

CHICAGO, April 7.—A Daily News correspondent cables from Pont-a-Mousson, France, under date of March 30 as follows: "This morning the French delivered a violent attack against the German lines near Fay, north-west of Pont-a-Mousson. At least two trenches were taken, with about 120 prisoners, but the advance was costly for the French. A little before 10 A. M. the heavy artillery at Pont-a-Mousson opened the battle, directing a cross fire on the Bois de Preire. Gradually other batteries joined in until the line from Pont-a-Mousson to St. Mihiel was thundering and roaring powerfully. "During the greater part of the forenoon the French continued to use a cross fire on the German works, but the Germans scarcely answered. A few shells directed against the batteries, several on the roads approaching the forest and a few more on the French trenches, made up about all of their artillery activity. Either they have changed their tactics absolutely or else they are in great want of ammunition. Apparently the French had expected a far greater response, for they sent away the troops near the batteries and the whole population of Montauville, a village on the line of operations."

BELGIANS VICTORIOUS.
Drive Germans From Blockhouse on Left Bank of Yser.

Special Cable Dispatch to The Sun.
Having, via London, April 7.—Belgian forces made two assaults this afternoon on a blockhouse on the left bank of the Yser which they had previously lost to the Germans and succeeded in capturing it after a short but very hard fight. According to an official Belgian statement issued here this afternoon, the statement says: "The enemy's artillery showed little activity to-day except with regard to Dixmude, where it violently bombarded our lines. In spite of the intense cannonade our infantry recaptured in the course of the afternoon after two assaults a blockhouse which the Germans had succeeded in occupying on the left bank of the Yser. The enemy was put to flight and suffered heavy losses from our fire."

1914 Class Wins Two Trenches on First Day.

Special Cable Dispatch to The Sun.
PARIS, April 7.—The Belgian army has received new uniforms of a gray material with a blue collar and cuffs. A dark colored kepi with adjustable ear-laps goes with them. A soldier belonging to the 1914 class writes that the enthusiasm which greeted the receipt of these uniforms is indescribable. "At last," he says, "after four months training we left France for an unoccupied part of Belgium. We arrived with the band playing and remained a week before proceeding to the trenches. King Albert and Gen. Joffre came and congratulated us on our first appearance and gave each of us five francs marked 1914. "We gained two trenches and advanced 500 yards in our first day at the front."

CALL GHENADIEFF TRAITOR.
Ex-Foreign Minister of Bulgaria Accused of Treason.

Special Cable Dispatch to The Sun.
ROME, April 7.—A despatch from Sofia, under date of April 6, received here, has been brought against former Foreign Minister Ghendieff of Bulgaria and is now being investigated by a military court. Ghendieff, according to the despatch, is charged with complicity in the bomb explosion at the Municipal Club during the carnival season in Sofia. It is asserted that he organized the plot at the instigation of Austria, the object being to place the blame on Servians and so bring about an anti-Serbian feeling in Bulgaria and cause Bulgarian intervention on the sides of the Teuton allies. It is said that incriminating evidence was discovered in the course of the judicial investigation into the cause of the explosion. The arrest of the ex-premier is demanded. This is opposed by the pro-German faction. On account of the fact that Bulgaria is under martial law the case was referred to a military court.

HAS NEW SERUM FOR WOUNDS.
Gordon Edwards, American Chemist at Front, Discovers Cure.

Special Cable Dispatch to The Sun.
PARIS, April 7.—A scientific discovery that may revolutionize the present treatment of certain kinds of wounds has been made, it was learned to-day by The Sun correspondent, by Gordon Edwards, a young California chemist who is working at the front with the British Red Cross. It is believed that the discovery is a new serum, but the details of its character are not obtainable at present. When Mr. Edwards was seen at the Red Cross headquarters here he said that he hoped to be able to reveal in another fortnight the results of the experiments he has been making at the front. He said of conditions at the front that there is an area of deep liquid mud almost as bad as quicksand between the opposing trenches. This condition makes any advance almost impossible because the men, laden with equipment, get caught in the mire and are shot down in heaps.

Berlin War Office Reports Advance of Troops at Ailly Also.

Special Cable Dispatch to The Sun.
BERLIN, via London, April 7.—A German success at Ailly and the annihilation of a Russian battalion near Meuse are reported in the official German statement to-day. The loss of Drei Grachten is admitted. The announcement is as follows: "In the Western Theatre. The village of Drei Grachten, which was occupied by our troops the day before yesterday and which the enemy has bombarded with his heaviest artillery and mine throwers, was, for this reason, again abandoned by our last night. An attack in the Argonne broke down under the fire of our machine-guns. Northeast of Verdun a French advance approached only as far as our outer positions. To the east and southeast of Verdun a series of attacks made by the enemy failed with extraordinarily heavy losses. In the Combray hills two French battalions were destroyed by our fire. At Ailly our troops commenced a counter-attack and drove the enemy back into his old position. At Apremont the enemy had no success. The other French attacks at Fereid and Fereid failed completely. Numerous bodies cover the fields before our front, and the number is increasing, owing to the fact that the French threw those who had fallen in their trenches in front of our positions. On the western border of the Bois de Preire our battalions drove back strong forces of the Thirtieth French regiment after a bayonet engagement. After a heavy snow-storm fighting has been going on since yesterday afternoon at Hartmannswiller Kopf. In the Eastern Theatre. During an advance on Russian territory in the direction of Andrejevka, our cavalry annihilated a Russian battalion. The commander, five officers and 360 men were killed. Another Russian battalion which hurried to the rescue was annihilated. We lost six men killed and 150 seriously injured. Russian attacks to the east and to the south of Kalwary, as well as those against our positions at Augustowo, were repulsed. Otherwise nothing special occurred on the eastern front."
